

# DECLARATION OF PERSONAL INTERESTS

## POLICY

It is ICNIRP's aim to provide guidance and recommendations on protection from non-ionizing radiation exposure based on thorough professional evaluation of the published scientific literature. To achieve this goal, ICNIRP relies on the scientific knowledge and judgment of independent experts. For ICNIRP it is imperative to avoid that personal interests of its members affect the independence of ICNIRP's guidance. In this view, the ICNIRP Commission and Scientific Expert Group (SEG) members are asked to declare any personal interests in relation to the activities of ICNIRP.

The declaration of interests is to be completed at the time of acceptance of nomination for an election, updated after election, annually, and each time a change of personal interest occurs. The declarations of personal interests are requested from all:

- candidates to an ICNIRP position
- ICNIRP Commission members
- ICNIRP SEG members
- ICNIRP Scientific Secretary

Upon completion and signature, the declaration is to be sent electronically to the ICNIRP Secretariat at [info@icnirp.org](mailto:info@icnirp.org).

Declarations of all elected members of ICNIRP and its SEG will be posted on the ICNIRP website. All publications of ICNIRP shall contain an acknowledgement with regard to the online availability of the declaration of personal interests.

The declarations are evaluated by the Commission. If there is any conflict of interest, the Commission decides in accordance with the ICNIRP provisions entailed in the Charter and Statutes (see below), about the action required. The general principle of ICNIRP's approach is that neither the personal, nor the professional life, of its members should depend on NIR-relevant commercial entities or any other NIR interest groups. It is recognized that scientific expertise implies a wide range of professional and academic experiences and activities, called personal interests, which however do not per se automatically lead to a conflict. The evaluation of personal integrity is very complex and might be difficult to achieve to the satisfaction of all parties. It is the responsibility of the ICNIRP Board and Commission to carefully consider and decide if the declared interests potentially constitute a conflict of interest.

As per the ICNIRP Statutes, "no member of the Commission shall hold a position of employment that in the opinion of the Commission will compromise its scientific independence. (...) When a change occurs in a member's employment which, in the opinion of the Commission members, may compromise the Commission's scientific independence, the Commission shall decide whether this member can continue to serve". The Commission decision shall be taken by a simple majority vote, either by a formal letter ballot, at a special Commission meeting called for that purpose, or at its Annual General Meeting (ICNIRP Statutes, §6(2)).

Where an elected member's declaration of interest has been evaluated and ICNIRP has concluded that it does not represent a conflict of interest, the reasons for ICNIRP's determination are provided below.

# DECLARATION OF PERSONAL INTERESTS

<b>LAST NAME, First name:</b> WOOD, Andrew		<b>POSITION (SEG, Commissioner, Sc. Secretary, incl. nominee):</b> SEG	
<b>ACTIVITIES AND ASSETS relating to the years 2020-2023</b> Please report activities, relationships and assets below, including any current application or negotiation for future activities, relationships and assets, as well as anything else that could be perceived as potentially representing a conflict of interest in relation to the activities of ICNIRP. Please provide explanation for acronyms.  If you want to report more than one item in a specific category, insert a new line by copying and pasting the cell of the concerned category.			
<b>EMPLOYMENT</b>			
Employer(s), function, title: Swinburne University of Technology, Chief Investigator, Professor  Dates – Start/End-Ongoing: Until July 2021, now retired			
<b>UNPAID CONSULTANCY, ADVISORY POSITIONS AND SERVICES</b> <i>These include unpaid consultancy and service as a scientific or other advisor for any commercial or non-commercial organization with an interest in NIR (including membership in scientific councils, associations, etc.) or as part of a regulatory, legislative or judicial process concerning NIR.</i>			
Name and description of the activity:  Dates - Start/End-Ongoing:  Name and status of the contractor:  Name and description of the activity:  Dates - Start/End-Ongoing:  Name and status of the contractor:			
Not applicable <input checked="" type="checkbox"/>

# DECLARATION OF PERSONAL INTERESTS

Income (percentage of the above mentioned unit's income): \$5k USD, <3% of total income for 2020.

Name and description of the activity: Expert advice on 50 Hz magnetic field levels in residences predicted to result from installation of HV cables.

Dates – Start/End-Ongoing: Ended 2020

Name and status of the contractor: Transgrid (the manager and operator of the high voltage electricity transmission network in New South Wales and the Australian Capital Territory, Australia).

Recipient of Income: Laboratory

Income (percentage of the above mentioned unit's income): \$7.5k USD, <5% of total income for that year

Not applicable

## RESEARCH SUPPORT RECEIVED FROM COMMERCIAL ENTITIES

*These are research support, grants, collaborations, sponsorships, other funding and in-kind support valued at more than EUR 1000 overall (including equipment, facilities, staff, paid travel to meetings, etc.).*

Name and description of the activity: In-kind support: three scientists/engineers seconded to laboratory on part-time basis (one since retired). All have adjunct appointments with the university. They are also Associate Investigators with the Australian Centre for Electromagnetic Bioeffects Research and their work is for direct benefit to a group at the University of Wollongong. They also assist in the computer modelling and dosimetric studies of the Laboratory as well as being associate supervisors for PhD and MSc students.

Dates – Start/End-Ongoing: Ongoing

Name and status of the contractor: a) Telstra Corporation b) (Formerly) Australian Mobile Telecommunications Association

Unit receiving and managing the income: University

Income (percentage of the above mentioned unit's income): No cash paid to university – all in-kind.

Are you free to publish whatever results your research shows without the influence from the entity funding your research?

## COMMENTS FROM ICNIRP ON THIS DECLARATION OF PERSONAL INTERESTS:

As the income generated by Dr Wood's advisory activities is to the agency rather than the person, and as this represents only a small proportion of the agency's funding; as Dr Wood's research activities relate to a collaboration, without additional research support and with no common publication, ICNIRP does not consider that this represents a conflict of interest. Approved.
